## PUBLISHERS NOTE

In producing this work the publishers have aimed to present a compact, quick Reference Book for Domestic and Foreign Buyers of American Made Goods, arranged according to a simple system that will enable the user to instantly ascertain who makes any specific kind of article desired.

No previous work has ever approached this publication in points of comprehensiveness, definite, detailed information, compact form and arrangement for quick reference. There have been far less comprehensive works, both as to detail and number of names, but printed in slightly larger type and arranged upon other systems that made a volume ten times the bulk of this one. The advantages of our convenient form will be obvious to every buyer.

### INSTRUCTIONS.

**LOOK FOR THE LEADING OR MAIN NAME OF THE ARTICLE WANTED.** The index to these names is carried in alphabetical order at the top of each column throughout the book, enabling the user to instantly find the page of the book on which is the heading naming any known article. Following the heading for every article the names of the Manufacturers or First hands are given, arranged alphabetically: 1st, by States; 2d, by cities and towns in the States, and 3d, according to names of manufacturers in each city or town. After the name of each manufacturer, the specific kind or kinds of article made by that manufacturer are specified in parenthesis. Following this is a capital letter or letters indicating the capital rating.

**FOR EXAMPLE:** "Automatic Sight Feed Lubricators" is indexed under the main name "LUBRICATORS", and the specific kind (Automatic Sight Feed) appears in parenthesis after the name of each manufacturer that makes this kind of lubricator. The same rule applies to the 2,500 articles or main headings, and to the 38,000 specific kinds of articles named in the book.

The Capital letters following the names of Manufacturers indicate capital ratings, according to the following scale:

AAAA	.....over \$1,000,000	D	.....over \$10,000
AAA	.....over 500,000	E	.....over 5,000
AA	.....over 200,000	F	.....over 2,500
A	.....over 100,000	G	.....over 1,000
B	.....over 50,000	H	.....over 500
C	.....over 25,000	X	.....No information

These ratings have no bearing upon credit, being added solely to give the user an idea of the relative capital ratings for use in cases where errors will not entail loss or damage to the subscriber or the name rated.

# Concerning this Publication

(The result of ten years experience in Publishing  
Trades Reference Books.)

## COMPACTNESS—

Type, paper, and arrangement have been adopted with this object in view. The book contains more information than anything ever issued heretofore, and without using any complicated index system, we have condensed into a 24-ounce desk pigeon-hole volume, a work of 1228 text pages—containing 98,240 names—2,500 divisions and 38,450 subdivisions.

## COMPLETENESS—

More than \$25,000 has been expended in the production of this work — every manufacturer (except those whose business area is strictly local) is entitled to full and complete representation absolutely free of charge or any obligation whatever. We earnestly solicit additions or corrections for next edition, and will be obliged to manufacturers and others who may favor us with any such.

## ADVERTISING

Only the highest class American Manufacturers are solicited for advertisements. To those who know, a casual glance over the representations in this edition will make comment on this point superfluous. Display advertisements constitute the only paid representation in the book. They are of two classes — the colored pages in the front, and descriptive reading matter as shown on page 597.

**PRICES :—**Colored pages, \$100.00 per page. Descriptive reading matter, 10c. per word—not less than 50 words in one place

An advertisement in this book lasts for One Year, but costs for only one issue.

## THE LIST OF BONDED ATTORNEYS

issued by the Association of Bonded Attorneys, Milwaukee, Wis., gives the name of the leading Commercial Attorney in every city and town of the United States and Canada. The list is corrected and published four times per year, a revised list being sent to subscribers quarterly.

## COLLECTIONS

When dunning does not bring remittance, the account is sent direct to the attorney at the required point as given in the Bonded List.

## GUARANTEE

Immediately upon advice that a claim has been placed in the hands of any Attorney in this list, the Association forwards the Subscriber a Fidelity Bond of the Fidelity & Deposit Co., of Baltimore, Maryland, guaranteeing the Subscriber against excessive fees, embezzlement or fraud of any kind on the part of the Attorney to whom the claim is sent.

## SPECIAL REPORTS

When a special Credit Report is wanted on any firm or individual in the United States or Canada, the name of the Attorney in the city or town from which the report is wanted is found in the list of Attorneys; a request is sent to him with fee of 25 cents (except in very large cities where 50 cents is required) and he returns the desired report, written up to date from his personal knowledge and investigation.

The Attorneys will also look after Subscribers' interests in any case requiring it and will keep them posted by mail or telegraph in cases where prompt information is necessary to protect subscribers' interest. It gives subscribers a personal representative at every point in United States and Canada.

## FREE LEGAL ADVICE

Our subscribers may consult the attorneys listed by us in their respective communities, on such points of law as require explanation, and post themselves generally without charge or expense, but the privilege intended to be accorded them does not include the investigation of matters requiring search of authorities or extended investigation.

# MR. MAKER:

**We are in the market for anything we can buy at a right price and sell at a profit.**

**Our catalogue — wholesale only — does what no other book in print does : It goes each month to practically every retail merchant in the United States, many of whom can be reached through this medium alone.**

**Our catalogue quotes net wholesale prices. The retail merchant knows what he can sell the goods for without writing for discounts. Therefore he buys.**

**We list nothing we do not own. Of 5 and 10 cent goods in particular, and of popular priced specialties in general, we can sell very many more than any other single concern in America.**

**We widen your field by placing goods before thousands of merchants who do not know about them. Get your goods in our catalogue and it is like having 500 traveling men calling on the trade every month.**

**We do not believe in 50 per cent profits. We do not run "baits" at cost or less. We sell all goods on a just, moderate profit, fair alike to maker and retailer.**

**We are pioneers in introducing goods. After an article appears in our catalogue you will find other houses eager to handle it.**

**We sell at wholesale only. No one not a legitimate merchant can buy goods of us, or have a copy of our catalogue.**

**When you've got a seller, you need not wait until your agent is in one of our cities. Simply write us and send a sample.**

*These are the old  
 fashioned double twist,  
 double cut augers. We  
 claim that rightly made  
 from good steel, they are  
 the best.*

*We make augers and  
 bits of all sizes and  
 lengths, as follows: Car-  
 penter, Millwright, Post  
 and Gas augers; Brace,  
 Car, Machine (right or  
 left hand) countersink,  
 Plug bits, etc. These are  
 made of Black Diamond  
 crucible cast steel, and  
 especially adapted to  
 workers in hard wood.*

*We cannot appeal to  
 you on the score of low  
 prices, but a trial will  
 prove that in the end  
 they are cheap.*

## ENGINES: DIE SINKERS & SURGICAL

**PA.—Philadelphia**  
 White Dental Mfg. Co., The  
 S. S., 12th & Chest  
 (Branches at New York,  
 Chicago, Boston & Atlan-  
 ta) .....AAAA

*The manufacturing  
 community at large will  
 be interested to know  
 that this firm has on the  
 market a Die Sinker's  
 Engine of its own manu-  
 facture, useful to any  
 establishment that has  
 need of such machinery  
 —and there are very few  
 manufacturers who have  
 not. The fact that it is  
 up to our standard in  
 quality will at once es-  
 tablish its reputation in  
 the minds of all who are  
 familiar with that stand-  
 ard.*
